HAMPDEN-SIDNEY, May 6, 1885.
Testerday the anniversaries of 1885 in the Theological Seminary, located at his village, began. The attendance of the trustees is full. The Rev. Dr. Bellock, of Washington, S. C., presides. The committee on examination ave been in session several days, and, and dition to their report of the oral and written examinations of the several dasses (and the reports were favorable), they have matured a large amount of mainess for the corporation. The experiment of having the usual official annual reports printed early in April and slaced with the trustees is successful. The Rev. Mr. W. E. Mellrain and B. F. Hall, Esq., of North Carolina, qualified as new trustees. The wain and B. F. Hall, Esq., of North Carolina, qualified as new trustees. The unusual absence of the Rev. Dr. Kirk-patrick, of Washington and Lee University, was a matter of regret, and the trustees make a record of their appreciation of the long and faithful services of this wise and good man and their sympathy with him in his sickness. The reports indicate a favorable and healthy condition of the Seminary. No losses have occurred in the income or

osses have occurred in the income or capital (now about \$257,000) of the in-stitution. Two new professors have been added to the official staff—Rev. Professors Latimer and Moore—and altogether the "signs of the times" are favorable. It's a mistake, howaltogether the "signs of the times are favorable. It's a mistake, however, to think the Seminary is rich. It requires economy to conduct an enterprise calling for five professors and aiding students to an amount equal to the interest on \$75,000 (now the scholarship funds, and part of the capital above stated). Three applications were made to the trustees for building lots, and the prospective increase in the number of students in the college and seminary makes a demand for every inch of existing buildings for the accommodation of students. Paretas who wish to be with their sons while in college desire to reside in this beautiful village, and the "Hill" society is most attractive. A hotel building is much desired and needed.

At 5 P. M. the chapel was filled with an interested audience who came to witners the unveiling of the Mural Tablet placed in the Seminary chapel, designed to commemorate the high and valued services of the Rev. Dr. J. H. Rice to the Seminary and to the country, who was inaugurated the first president on January J. 1824. The Rev. Dr. B. M. Smith introduced the public exercises with an interesting and clear statement of the main events in the statement of the main events in the statement of the main events in the first president of the main events in the statement of the main events in

This venerable gentleman was fully equal to the occasion, and gave a very appreciative and just view of the virtues and character of Dr. Rice. No one could have made a more appropriate address. The exercises were not long and of unusual interest, and conducted in admirable good taste.

This will certify that two members of my immediate family, after having suffered for many years from menstrual irregularity, and having been treated without benefit by various doctors, were at length com-pletely cured by one bottle of Dr. J.
